A Durable Solution

A durable solution is achieved when IDPs no longer have specific assistance and protection needs that are linked to their displacement and such persons can enjoy their human rights without discrimination resulting from their displacement

IASC Guiding Principles on Internal Displacement (Paragraph 28-30) + Action Agenda

- IDPs have a right to a durable solution and often need assistance in their efforts.

Durable Solutions

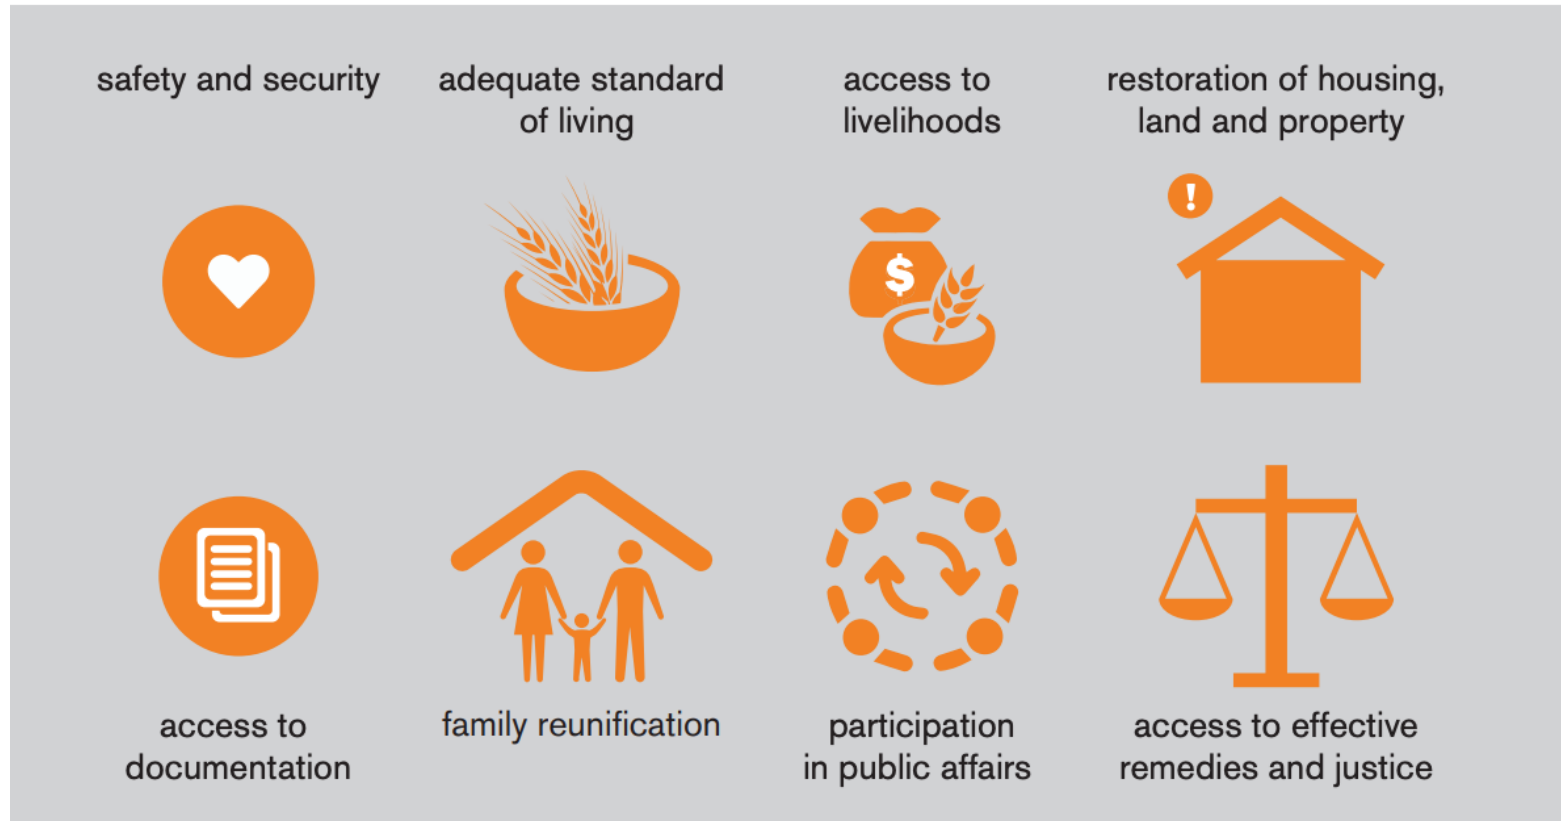

A durable solution can be achieved through:

- Sustainable reintegration at the place of origin (return);
- Sustainable local integration in areas where internally displaced persons take refuge (local integration);
- Sustainable integration in another part of the country (settlement elsewhere in the country).
